

FELLOWS COURSE	
SCIENTIFIC PROGRAMME (EVOLVING)	
March 1, 2017 Hotel Ashok, Chanakya Puri, New Delhi	
Time	Topic
0800 - 0815	Femoral Vascular access and complications
0815 - 0830	Management of Coronary air embolism
0830 - 0845	Slow flow/ No flow
0845 - 0900	Radial angiography and PCI-tips and tricks
0900 - 0915	Percutaneous Coronary intervention- Exotica
0915 - 0930	Lesion modification by cutting and scoring balloons
0930 - 0950	Rotational atherectomy -optimal techniques and avoiding complications
0950 - 1005	How to avoid Contrast Induced Nephropathy
1005 - 1020	Coronary Perforation: How to handle them?
1020 - 1035	How to do Transseptal puncture ?
1035 - 1050	Tips and tricks Balloon Mitral valvuloplasty
1050 - 1110	Device Closure in ASD -Tips and tricks
1110 - 1130	Carotid Stenting: Hardwares & Techniques
1130 - 1145	Dislodgment of hardware: Role of Snares
1145 - 1200	Recent PCI trials which influence clinical practise
1200 - 1220	Update on Multimodality imaging to guide Coronary revascularization
1220 - 1240	Peri-Procedure anti-platelet therapy and its impact on outcomes
1240 - 1300	Bifurcation (non - left main) stenting techniques
1300 - 1320	Aorto ostial and branch ostial lesions interventional techniques
1320 - 1340	PCI in STEMI: Issues & Solutions
1340 - 1425	LUNCH BREAK
1425 - 1440	Wire selection in CTO intervention
1440 - 1455	CTO angioplasty: Antegrade approach-tips and tricks
1455 - 1510	CTO angioplasty: Retrograde approach-tips and tricks
1510 - 1530	SVG and LIMA graft interventions: How it is different?
1530 - 1545	IVUS: Core concepts and case examples
1545 - 1605	Left main angioplasty: Tips and tricks
1605 - 1620	Tips & Tricks of BVS Implantation
1620 - 1635	FFR: Core concepts and case examples
1635 - 1650	OCT: Core concepts and case examples
1650 - 1705	Overcoming stent delivery problems.
1705 - 1725	DES thrombosis / DES restenosis : How to treat?
1725 - 1740	Recent Structural Heart Disease Trials
1740 - 1800	Superficial Femoral artery and Iliac artery intervention- equipments and techniques
1800 - 1815	PCI of anomalous coronary artery origins - Tips and Tricks
1815 - 1830	PCI in Ectatic Vessels
1830 - 1845	Peri-Procedure anticoagulation: Does the choice matter?
1845 - 1900	Tips and tricks of Left atrial appendage closure

1900 - 1920	EVAR and TEVAR -for whom and how to do?
1920 - 1940	TAVR Hardware & Techniques
1940 - 1955	Appropriate Use Criteria for Coronary Revascularization: Essentials for Fellows
